2850 Mountain View Road
 El Monte, CA 91732

-September 29

-October 6

-October 13

-October 20

-October 27

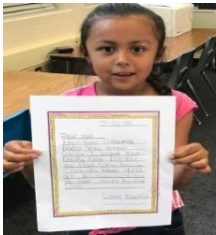

-November 2

Breakfast 8:20-8:50 a.m
Instruction 9:00-12:00 p.m.
Lunc 12:00-12:30 p.m.

PROGRAM HIGHLIGHTS

Daily Summer Academy was for PK through grade 7, and included the Parent Academy.

Focus for the Summer Academy was the Vocabulary and Language of Mathematics, and a Hero's Journey for Language Arts. Each grade cluster had a literature book that helped them to learn the journey of the hero inside of them. Wonderful writing, discussion, and creativity was provided by the teachers, and enjoyed by all the students and parents alike.

Parent Academy reached a new high point this summer. Incredible discussions about children, family, school, careers; beautiful and creative art to touch that part within all of us that is unique, and opportunities to understand and utilize tools to help us become better partners with our children toward school success.

Technology was everywhere, and we all used it to improve our Reading and our Mathematics skills. We used Imagine Learning, and Learning Farm, along with other programs. We wrote about characters, wrote letters to authors, and responded in writing to mathematical questioning which helped us understand concepts more completely.

Scholarship Winners: Our Region 10 Scholarship winners this year are Martha Naranjo (El Monte High School) and Karen Rosales (Rosemead High School). They have always been very focused students, who have worked hard throughout their days in elementary, middle, and high school. Martha will be attending UC Merced, and Karen will be attending UC Los Angeles. Way to go ladies! 😊

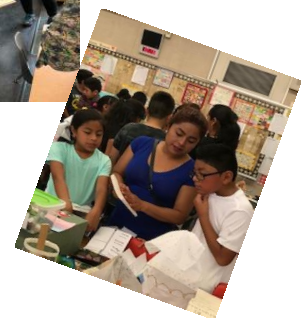

Martha Naranjo
EMHS

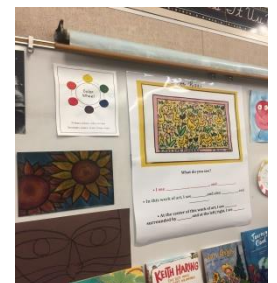

Karen Rosales
RSDHS

Focus Walks were taken by parents and district staff. They were able to see the many strategies utilized by students and teachers that assisted our learning. They were very positive and the students were even able to see the parents' classrooms and learn from the parents. Awesome!

Fine Arts was a huge success this summer...from studying the great Masters to using various mediums to create our own masterpieces, to learning a dance, a song, and on and onand we found out our Migrant Education program group is quite talented! We even had an Art Fair and Exhibition and a performance!!

Regional Summer Opportunities are offered to students every year. There are 1 and 2 week residential university programs for our middle school and high school students. The universities our students attended this summer were UC Riverside (Pursuit of Awareness Through the College Experience), Cal State Channel Islands (Leadership Institute), Cal Poly Pomona (Applied Mathematics) and Cal State Long Beach (Pursuing Academics Through Higher Educational Studies). Outdoor Education is a one week camp for our 4th – 6th grade students; providing them opportunities to explore STEM in an outdoor setting.
