

MAINTAINING A HEALTHY ENVIRONMENT

Our Rosemead schools will follow health and safety protocols designed to ensure a safe and healthy environment on campus.

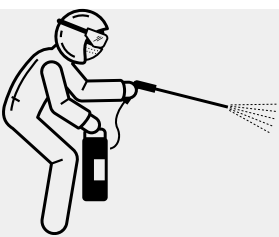

FACE MASKS

Face masks covering the nose and chin will be required for all students and staff at all times while they are indoors and during arrival and dismissal time since they will be in close contact with others. While outdoors, masks are encouraged though not mandatory.

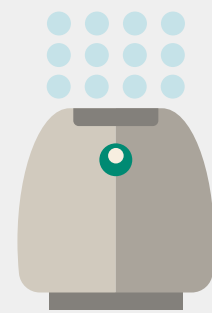

PHYSICAL DISTANCING

Physical Distancing will be based on the latest LACDPH (LA County Department of Public Health) guidelines

FREQUENT DISINFECTING

Each school's custodial staff will use electrostatic sprayers to disinfect high-traffic surfaces, such as doorknobs, light switches, desks, and chairs daily.

AIR FILTERING

All classroom heating, venting, and air conditioning systems meet the CalOSHA requirements for air ventilation and filtration.

DRINKING WATER

Water fountains have been retrofitted with bottle filling stations. Students can bring a reusable water bottle to fill up.

HAND WASHING

Frequent hand washing will be required using sinks, portable handwashing stations, and hand sanitizer stations throughout campus.

COVID-19 TESTING

COVID-19 response testing and contact tracing program will be provided by our health staff for students and employees on each campus.

DAILY HEALTH SCREENINGS

Students and staff will complete a daily health check before entering campus to alert the school of any potential symptoms.

The safety and health of our students and staff is our top priority!
