“Great things are happening everyday District at every school in the Rosemead School District,” Superintendent Dr. Enomoto-Perez said. “The learning environment at Muscatel Middle School is the product of parent, student, teacher and community involvement and dedication over the years. With the recent initiatives against child obesity, the new Muscatel Fitness Room will provide a more modern learning environment for all Mustangs, where students will find new opportunities in the areas of health, body image and physical activity. This is a landmark event for all of Muscatel and its educational system. It is a testament of the progress the Rosemead School District is making in preparing our young people for healthy futures.”

The Fitness Room was designed for our students in grades 7-8. The Muscatel Fitness Room was funded through the Rosemead community through the General Obligation Bond and other District monies.
