NEW BUSINESS

Exhibit 1 Matrix for New Business Topics and Follow Up

- Superintendent Ruvalcaba provided the following updates:
 - In preparing for the April 17 study session we originally planned to have someone following the Board with a camera to ensure participation by members of the public. In conversations with the technology department regarding logistics coupled with the requirement to maintain social distancing 6 feet apart, this was going to be a very big challenge. We've also received interest from members of the public, members of the Citizens' Bond Oversight Committee, that they are interested in touring the sites with us. Therefore, staff is recommending that we modify the plans to start the meeting via zoom in the Boardroom for opening procedures, proceed to site tours in-person following a site schedule with times, and return to the Board room for closing procedures via zoom. This revised schedule would allow for the members of the public who are interested in participating in the site tours to do so in-person. Superintendent Ruvalcaba also shared the reason for the site tours to identify the facilities needs of our District by site as listed on the Facilities Master Plan (FMP). The site tours would afford Trustees the ability to align the needs listed in the FMP to the actual physical facilities on each campus. At a future meeting, the Board would set a priority list and go through each of the sites to prioritize the projects and decide which projects would be funded.

- It was the Board's unanimous consensus to proceed with the new plan for the study session.
- Superintendent Ruvalcaba shared that staff will detail the site tour schedule as much as possible to ensure that interested members of the public can attend if they elect to.
- Shared that the Board requested an approximate cost and a comparison of what was necessary to upgrade the Encinita Classroom. He shared that there are two options we are faced with: 1. Consider a Board emergency resolution similar to Savannah Classroom #1 which would expedite the process, or 2. Consider going through the formal bid process through DSA which would prolong the process. Mr. Sullins shared the details of both options and answered questions. He also shared that the formal bid process would prolong the project with work possibly starting in September or October whereas an emergency resolution would result with the classroom by the beginning of the school year in August.
 - It was the Board's consensus to proceed with the traditional bid process.
- Trustee Esquivel asked everyone to be safe and responsible during the upcoming Spring Break.
 - Shared that he likes the water stations at each school and noticed that we only have 1 per school at this time. He inquired on the cost per unit.
 - Assistant Superintendent Sullins shared that the cost is \$1,800-2,400 per unit/dependent on the vendor.
 - Trustee Esquivel suggested that possibly the Educational Foundation of Rosemead can provide support in this area.
 - Superintendent Ruvalcaba shared that the District can add additional units to each campus, if there is a Board consensus.
 - It was the Board's unanimous consensus to move forward with an additional unit to each campus.
 - Proposed a resolution against hate, all lifestyles, general on every race, creed, religion, lifestyle, etc.
 - It was the Board's unanimous consensus to bring forth a resolution.
- Trustee Quintanilla inquired if the District could utilize some of the one-time funds to begin replacing the vehicles.
 - Assistant Superintendent Sullins shared that the District has already begun researching the cost of replacement of the fleet and research outside funding opportunities.
 - It was the Board's unanimous consensus to begin the replacement process for the M&O fleet.
